MBBS Year 3 Enrolment Information

To help you enrol for 2010 please follow the steps below.

Step 1: Please check the website below to determine when enrolment opens for your program: http://www.adelaide.edu.au/enrol/opentimes/.

Step 2: Complete your online Enrolment Checklist on Access Adelaide.

Step 3: Enrol in of your courses for semester 1. Please take note of the class (section: CB01 for CBL) you select as you will need to enrol in to the same 'Section' for semester 2. The “Section” is a code, eg. CL01 and this code determine which class you are in. Here are the links to get the class number for your semester course.

Medical Professional & Personal Development
Scientific Basis of Medicine
Exam
Clinical Skills

Step 4: Select and enrol in your semester 1 and semester 2 electives. Year 3 students can choose anything that doesn't clash with your medicine (MEDIC ST) courses.

If you have not already taken a Medical Microbiology and Immunology course in Year 2, please note that there is a new Year 2 Medical Microbiology and Immunology II course that is available for you as an elective in Semester 1. The enrolment component is the lecture and the related class is the tutorial. When selecting the tutorial please select a time that does not clash with any other MBBS course.

Please note Year 2 students have priority over the prescribed list, if a Year 2 student cannot gain a place in an elective because that place has been taken by a Year 3 student, the Year 3 student may be directed to choose a different elective.

To allow flexibility for Year 3 students, and to enable them a wider choice, the 3 unit rule for "outside" electives has been waived. That is, Year 3 students may take more than 3 units outside of the Faculty of Health Sciences if they wish. This is an alteration of the original policy, which stipulated that 9 units must be from the Health Sciences - this is no longer the case.

For questions about policy please contact Professor Anna Chur-Hansen - anna.churhansen@adelaide.edu.au or 8222 5785.

You may wish to choose a course in the Faculty of Health Sciences which may be of interest to you providing it does not clash with your MBBS schedule.

Here is a link to the Course Planner to search for other electives.

Step 5: Once you have completed your semester 1 enrolment, you will now need to enrol in to semester 2 courses. Please don't forget to enrol in to the same class section for your CBL and tutorial as you did in semester 1

Medical Professional & Personal Development
Scientific Basis of Medicine
Exam
Clinical Skills

If you have any troubles with your enrolment please check this website http://www.adelaide.edu.au/enrol/steps/ or contact the Student Centre on 8303 3833 or via email enrol.help@adelaide.edu.au

Regards
Medicine, Learning and Teaching Unit
