Opportunities exist for students to undertake an elective at the Medical University of Graz, Austria (www.eduni-graz.at/international).

Some information regarding the University as follows:

“I am very proud to inform you that our curricula have just received a quality label and they are the first medical curricula in Austria which have been accredited (2009). The Medical University Graz is located in the second-largest city of Austria (after the capital Vienna which is 200 kilometres north of Graz) and has collaborations with over 50 universities from 18 different countries within Europe.

Beside the European partner universities, we have established tight and well-working exchange programs with universities in Australia (University of Queensland), the US (George Washington University, University of Missouri -Kansas City, University of Minnesota), New Zealand (University of Otago, Mexico ( UNIVERSIDAD DE GUADALAJARA), China (Wenzhou Medical College and Beijing University of Chinese Medicine), Taiwan (National Taiwan University, China Medical University), Japan (Hiroshima University), Egypt (University of Cairo) and other universities in Thailand, Indonesia and Vietnam.

Your students need not to speak German, as all doctors and some patients are fluent in English. We receive a number of international guests (students and doctors) who do not speak German each year, please have a look at www.medunigraz.at/4211 to find out what foreign students said about their stay at the Medical University of Graz. Your students could do a clinical elective at the following clinical departments (depending upon availability):

Anaesthesiology and Intensive Care
Ophthalmology
Surgery and Subspecialties
Dermatology
ENT
Internal Medicine
Pediatric Surgery
Pediatrics
Neuro-Surgery
Neurology
Radiology
Urology
Dentistry"

If you are interested in this experience at their teaching hospital, please email Christina Schoenbacher at christina.schoenbacher@medunigraz.at
